EDUCATION

Indian Institute of Technology Kharagpur Dual Degree Mining Engineering | Micro-Spl. Entrepreneurship **CGPA: 8.23 / 10.0**

TA: Data Analytics & ML Lab | **Relevant Coursework:** Programming & Data Structures, Quantitative Decision Making, Probability & Statistics, Linear Algebra

INTERNSHIPS

Product Management Intern | LimeChat | Bengaluru | Voice AI **May 2026 - Jul 2026**

Conversational AI SaaS platform automating WhatsApp, voice and email for 50+ enterprise brands (Nivea, Mahindra) | Reporting to Deputy DoP

- Increased average call duration from **24s to 40s+** by querying **500K+ audio logs** in SQL to map user drop-offs & optimize prompt architecture
- Cut engineering QA load **40%** via a MECE scenario testing framework by building an autonomous simulation bot for end-to-end bot-on-bot QA
- Reduced report generation time from **2 hrs to <5 mins** & cut bot team dependency by shipping an analytics module from a solo-authored PRD
- Resolved **60%** of recurring prompt issues upfront by engineering a prompt self-learning system deployed across **10+ live enterprise voice bots**

Product Management Intern | Gen AI Labs | USA | Agentic Workflows **May 2025 - Jul 2025**

Agentic Private Markets platform automating deal sourcing & diligence, generating investment memos from complex CIMs for PE firms | Reporting to Founder

- Authored **3 AI feature PRDs** & humanized multi-agent personas based on 15+ competitor benchmarks, boosting user adoption & trust metrics
- Reduced deal memo review time **30%** while maintaining **98%+ LLM evaluation accuracy** by engineering inline-reference interactive UI systems
- Shipped the primary marketing platform end-to-end by steering sprint roadmaps across a **6-member cross-functional team** of dev and design
- Generated **$90K+ B2B pipeline** and closed a **$36K ARR client** by directing founder GTM strategy, investor decks, and enterprise product demos

ENTREPRENEURIAL VENTURES

Cofounder & CEO | Scalex | LegalTech B2B SaaS **Mar 2025 - Oct 2025**

B2B LegalTech SaaS platform automating administrative workflows, case lifecycle management, and advocate client scheduling for law firms across India

- Conducted **40+ interviews** with lawyers to validate the problem, mapping workflow bottlenecks & projecting **22+ hrs saved** weekly per law firm
- Secured a **paid pilot deal** with an enterprise law firm, shipping the MVP in **5 weeks** & onboarding **30+ active users** on the management module
- Generated **INR 800K** sales pipeline via B2B marketing & pitching the LegalTech platform to **15+ law firms** and advocate chambers across India

PROJECTS

User Behavior Simulation (UBS) Engine **Sep 2026 - Present**

Discrete choice simulation engine aimed at synthetic UX research and pre-development product decision validation via McFadden Random Utility Logit

- Predicted binary UX decision forks with **3.34% Grand MAE** across 30 published consumer studies via **McFadden Random Utility Logit modeling**
- Validated problem space via surveys & **15+ interviews**; designed **5 MECE personas** over 1,000-agent swarms with higher accuracy & lower cost
- **Eliminated 99% LLM sycophancy bias** by architecting a decoupled 4-layer system separating semantic parsing from mathematical logit engines

LOCUS | Productivity Gamification Android App **Oct 2026 - Present**

Native local-first Android app built with Kotlin, Jetpack Compose, and Room SQLite to curb distractive smartphone doom-scrolling & boost deep-work focus time

- Reduced daily distractive screen time **40%+** across **18 beta DAUs** by implementing per-session app caps & behavioral slide contracts in **Kotlin**
- Cut study session friction to **<1s** with zero-UI gesture initiation; built zero-telemetry local **Room SQLite DB**, syncing only gamification metrics

COMPETITIONS & AWARDS

Gold | Adobe Product Development | InterIIT Tech Meet 14.0 **Nov 2025 - Dec 2025**

- Shaped core product strategy by leading research to size a **$725M mobile AI TAM** for Photoshop 2030, defining 3 distinct mobile user personas
- Prioritized **top 5 of 20+** designed AI features via a 3-factor **RICE model**; steered interactive UI/UX for non-destructive layer editing workflows

Gold | LightMetrics Supply Chain Challenge | GES, IIT Kharagpur **Jan 2025**

- Prototyped a V2G-integrated logistics SaaS platform, modeling 200M km/yr fleet ops and projecting a **47% operational fleet utilization uplift**
- Formulated data-driven EV dispatch strategy using Time-of-Use electricity pricing, cutting operating costs **38%** & empty-miles route by **64%**

POSITIONS OF RESPONSIBILITY

Contingent Design Captain | InterIIT Tech Meet 14.0 **Sep 2025 - Dec 2025**

- Clinched **5th consecutive contingent gold** by earning max presentation points in **8 out of 13 PS**, directing **45+** technical reports, decks & videos
- Achieved **100%** on-time delivery by orchestrating **22 designers** across a **200+** member contingent via strategic skill and requirement mapping
- Cut design rework by **35%** across all deliverables by formulating design frameworks & sprint review methodology collaborating with **13 teams**

Executive Head | Product Club, IIT Kharagpur **Jul 2025 - Jul 2026**

- Achieved **1.5x engagement uplift** reaching **1,200+ students** by organizing workshops and building a central knowledge library for aspiring PMs
- Drove **1K+** registrations on HelloPM bootcamp within **1 week** by orchestrating the partnership through GTM campaigns & targeted outreach
- Directed junior PM cohorts across **5+ live industry projects** and knowledge meets; produced **6+ sector teardowns** & **10+ product breakdowns**

Media & PR Head | TeamKART (Formula Student EV) **Apr 2024 - Apr 2025**

- Founded the first dedicated media team in 16 years, delivering **5M+ digital impressions** & executing 4 major PR events and collabs in 2 years
- Spearheaded **372% YoY sponsorship growth** to **INR 40L+** with an annual INR 45L+ team budget by strategizing a pivot to corporate CSR funding
- Clinched **1st** at Formula Bharat Virtuals & **3rd** in Business Plan; repurposed 80% SOH batteries to LSEVs at **60%** lower cost & 40% lower emissions

SKILLS & EXPERTISE

Tools: SQL | Python | Pandas | Figma | Jira | Room DB | Supabase | Docker | Tableau | Power BI | Git | Advanced Excel | Google Analytics | Metabase
Product: User Discovery | PRD | Prototyping | A/B Testing | Funnel & Cohort Analysis | LLM Evaluation | RICE Prioritization | Agile Sprints | Roadmapping
AI & Agents: Prompt Architecture | Loop Engineering | Chain-of-Thought | Agentic Workflows | AI Safety & Guardrails | Human-in-the-Loop (HITL) Design

EXTRACURRICULAR ACTIVITIES

Competitions: Meesho DICE National Semi-finalist; Gold in GC Data Analytics; 4-year podium streak in GC Ad Design; Silver GC Case Study, Product Design
Creative: Ran an 8-person multi-service creative agency; directed 3 short films, 2 music videos; won GC SFM Silver (led a crew of 20) & IFP National Bronze
Social Volunteering: Led 50+ student volunteers; organized health camps & cleanups; interacted with 200+ blue collar workers, helped 18+ in securing jobs
